LLOYD GEORGE CONCERNED OVER IRISH TRUCE BREACHES, BUT STILL HOPES FOR PEACE

Tells Parliament Sinn Fein Is Doing Utmost to Prevent Violations.

CRAIG STILL IS FIRM.

Declares Rights of Northern Ireland Can Never Be Surrendered.

LONDON, Nov. 10.—Addressing the House of Commons this afternoon, Premier Lloyd George expressed the "gravest concern" over breaches of the Irish truce, but declared he was "determined the Sinn Fein leaders are doing their utmost" to observe it.

In the Irish negotiations break down, the Premier told Parliament, a reasonable notice of the termination of the conference will be given. After that the Government will do its utmost to protect life and property, he said.

LONDON, Nov. 10.—(Associated Press).—A statement issued after this morning's meeting of the Ulster Cabinet members here concluded as follows:

"Sir James Craig (the Premier), on behalf of the Cabinet of Northern Ireland, wishes it clearly understood that there can be no surrender of Ulster's rights.

The statement promised by Prime Minister Lloyd George outlining the negotiations with the Sinn Fein representatives had not been received by the representatives of Ulster this forenoon, but Mr. Lloyd George said word he hoped to be able to supply it during the afternoon.

The Secretary of the Ulster party was keeping in touch constantly with Downing Street, where the British Cabinet met at noon, and it was announced that another meeting of the Northern Ireland Cabinet would be held as soon as the detailed statement was received.

Mr. Lloyd George meanwhile suggested that his meeting with the Ulster Cabinet go over until Friday.

The Ulster communiqué, given out after the morning's meeting, indicated that in lack of the British Premier's statement the Ulster Cabinet was unable to make formal reply to the Government. On this point the text of the communiqué said:

"An apology to Sir James Craig was received from Mr. Lloyd George stating his inability, owing to pressure of work, to supply the detailed statement of the proposals promised by him yesterday. He hoped, however, it would be possible for him to furnish the document this afternoon, and he suggested the meeting of the Northern Cabinet with him should be deferred until Friday."

LONDON, Nov. 10.—The Irish situation was to be placed before the whole British Cabinet at a special session called for 4 o'clock this afternoon. Preliminary to this meeting Government leaders conferred in Downing Street.

Members of the Ulster Cabinet gathered at the Hotel Savoy, where

LEAGUE OF NATIONS PLEDGES HARDING FULL CO-OPERATION

Rene Viviani Brings Formal Approval of Limitation Conference.

NOT VIEWED AS RIVAL.

May Be Medium of Extending Washington Agreements to All Powers.

By David Laurence.

(Special Correspondent of The New York Evening World.)

WASHINGTON, Nov. 10 (Copyright, 1921).—The principles adopted and the agreements made at President Harding's Conference on the Limitation of Armament may be applied to all the other nations of the globe through the medium of the League of Nations.

A point of contact between the League, which has more than forty nations within its jurisdiction, and the conference of Principal Allied and Associated Powers called by Mr. Harding has been established informally. Rene Viviani, former Premier of France and member of the French delegation to the Washington Conference, has brought with him the reports and conclusions reached by the Commission on Armament appointed by the League of Nations and of which he is Chairman.

Far from regarding Mr. Harding's project as a rival affair, the League formally expresses its approval of the initiative of the President of the United States and promises him co-operation.

"Next in importance to the disarmament of Germany," says the League's formal report, "comes the proposal of President Harding that a conference should meet at Washington to discuss disarmament and the settlement of the political problems of the Pacific. The League of Nations, which exists for the purpose of securing international concord, naturally welcomes with great satisfaction the initiative of President Harding."

"The limitation of naval armament, which will be one of the principal problems discussed at the conference at Washington, can indeed be most effectively secured by a common agreement between the powers. It is earnestly to be hoped that this conference will be fruitful, and that the reduction of the land armaments in the Continent of Europe will be supplemented by an understanding re-

GARMENT WORKERS EXPECT ORDER TO WALK OUT TO-DAY

Union Vote to Reject Piece Work and Longer Week Favors Strike.

There is every likelihood that a strike will be declared this afternoon by the International Ladies' Garment Workers' Union, and that with it 100,000 workers will quit their benches and machines in this city.

The ballots for or against a strike which have been cast in the last few days in the various local branches of the union are now being counted and the result will be announced this afternoon.

It is reported that the count shows an overwhelming majority in favor of striking at once.

For a long time the union has been debating a walkout following the announcement of the cloak, suit and shirt manufacturers' Protective Association on Oct. 25 that on Nov. 14 piece work would be made to replace week work and that forty-four hours of work weekly instead of forty-four would be demanded of the operators.

When President Schlesinger of the workers' union was asked this afternoon for some statement as to the likely action of the cloak and suit employees, he said:

"If the manufacturers' association doesn't keep to its agreement to have week work and does to change from forty-four to forty-nine hours as the measure of a week's work, there will be a strike."

The question of week work and piece work is considered by the union employees as secondary to the matter of the longer hours. This is the larger bone of contention between the association and the union.

It has been the contention of the manufacturers that piece work was of greater benefit to the workers themselves, as fair to the honest, industrious worker, and as better for the trade generally and calculated to reduce the price of garments.

On the other hand, as indicating the greater value of week work in the making of garments, it is declared that practically all salesmen's samples, supposed to represent the high excellence of manufacture, are made by week work instead of by the piece plan.

Heaviest November Snow in Years Up-State.

MALONE, N. Y., Nov. 10.—A blanket of snow one foot thick covered Northern New York to-day. Traffic on railroads and highways was seriously hampered. The snowfall was the heaviest that had been seen in early November for many years.

Armistice Day To-Morrow

How It Should Be Observed Stated in President Harding's Proclamation.

"And in order that the solemnity of the occasion may be further emphasized, I do hereby furthermore recommend that all public and church bells throughout the United States be tolled at intervals between 11:45 o'clock A. M. and 12 o'clock noon of the said day, and that from 12 o'clock noon to two minutes past that hour, Washington time, all devout and patriotic citizens of the United States indulge in a period of silent thanks to God for these valuable, valorous lives and of supplication for His Divine mercy and for His blessings upon our beloved country."

King George Tells Parliament He Hopes Conference Will Be Successful.

LONDON, Nov. 10.—The earnest hope that the work of the coming Armament Conference in Washington will be rewarded by success was expressed by King George in the speech from the throne promulgating Parliament to-day.

"I have followed with great interest the steps taken by the President of the United States to promote the reduction of expenditure on armaments—an object which commands the fullest sympathy of my Government," said the King. "It was in this spirit that my Government gladly accepted the invitation extended by the United States Government to the conference to be held in Washington. It is my earnest hope that the labors of the conference will be crowned with success."

SECRET JAPANESE TREATY IS DENIED BY LLOYD GEORGE

Tells Parliament There Is No War Agreement Not Known to the World.

LONDON, Nov. 10.—(Associated Press).—There does not exist any military or naval agreement, understanding or arrangement of any kind between England and Japan not known to the terms of the Anglo-Japanese "Treaty," said Prime Minister Lloyd George in the House of Commons this afternoon.

This statement was made in answer to a question whether, in view of the impending Washington conference, he would state if any supplemental arrangement existed.

Parliament adjourned indefinitely this evening.

GREAT THROG HONORS "UNKNOWN HERO" AS HE LIES IN STATE AT CAPITOL

Americans of Every Rank File Reverently Past Casket All Day Long. While Flowers From All Over World Almost Hide the Catafalque—England and France Pay Official Tribute.

WASHINGTON, Nov. 10 (Associated Press).—Great and small folk moved in endless procession to-day through the rotunda of the Capitol to pay tribute to the Unknown American Soldier lying in state there as only martyred Presidents have known. The day was aside for it.

All who could speak for groups in the land or for the powers of the world were free to place their floral offerings at his bier. Hour by hour the heaping flowers about the casket grew mountain high and spread about the vast chamber. Flowers that bloomed in France were there, and flowers brought in all their beauty from South Africa, 9,000 miles away.

ALL N. Y. TO PAUSE IN ITS ACTIVITIES AT NOON TO-MORROW

Armistice Angelus to Signal Two-Minute Period of Silence and Prayer.

From 12 o'clock noon to-morrow until 12:02 all New Yorkers, if they obey the proclamations of President Harding and Gov. Miller, will stop their work, stop their journeys and spend that brief period in silence and prayer in thankfulness for victory and in memory of those who gave their lives to win it.

All the transportation lines of the city will halt at noon. Notices to this effect were sent out yesterday by the Interborough Rapid Transit Company, the Brooklyn Rapid Transit Company and the New York Street Railways Company.

From 11:15 until 12 o'clock, as requested by the Governor's proclamation, the bells of all churches will toll. If a reminder of the silence period is needed, this should suffice.

Many stores and business houses will be closed because of Armistice Day this year being a legal holiday. The Fifth Avenue Association decided yesterday to close all the shops of members.

Factories and other work places which will not close have made arrangements in many cases to shut down their machinery for the two-minute period at noon.

THE REVERENT MULTITUDE PAYS ITS TRIBUTE.

Gradually the great side leading on up the great steps to the closed doors of the rotunda filled with folk came to pass by the bar with bowed heads. Off to the right, where the steps sweep up to the Senate Chamber, another group gathered about a floral garland, the first of the many to be set in place. From the other side a double squad of soldiers from the engineer barracks, overcast against a long vigil in the cold of the great chamber beside the dead, with fixed bayonets and rifles at the trail,
